Procedure for Cleaning Carpeted Stairs

Tools & Materials Needed:

1. Vacuum
2. Extractor
3. Brush
4. PreSpray shampoo
5. Gloves and goggles

Products:

Put on gloves and goggles.

1. Vacuum the stairs thoroughly.
2. Set up the extractor with clean, hot water. Always work from the top of the stairs down.
3. Pre-Spray top stair. Agitate with brush and rinse with clear water through the extractor.
4. Repeat this procedure until all stairs are clean.
